👤 Profile

Ambitious and results-driven Software Engineer with a strong background in Odoo development and full-stack web technologies. Skilled in crafting scalable ERP solutions, building custom modules, and delivering high-impact digital products. Known for being detail-oriented, self-motivated, and a natural leader with excellent collaboration and problem-solving skills. Passionate about leveraging technology to create innovative solutions that improve lives.

📁 Professional Experience

02/2024 – 06/2024
Addis Ababa, Ethiopia

Odoo Developer

Purpose Block Ethiopia (Internship)

Created modules compatible with both Odoo 16 and 17.
Customized and extended Odoo modules (Sales, Inventory, HR).
Built advanced features using Python, XML, and PostgreSQL.

Addis Ababa, Ethiopia

Web App Developer

Technologies: Next.js, React, TailwindCSS, Django, PostgreSQL, Git

- Developed dynamic and responsive full-stack web applications using **Next.js** and **React**.
- Built user-friendly interfaces with **React components** and modern CSS frameworks like **TailwindCSS**.
- Integrated backend APIs using **Django** and managed state efficiently with React hooks and context.
- Created a **University Report System** for Jigjiga University that streamlined reporting workflows for staff.
- Developed a **Full-Stack E-Commerce Web App** featuring product listing, search, cart, and order management.
